

7506

PERIMETER SEAL

A robust seal designed for use on plain or rebated meeting stiles. With proven acoustic performance it is also suitable for smoke, light, and draught containment. The leg can be cut out to make way for locks and latches.

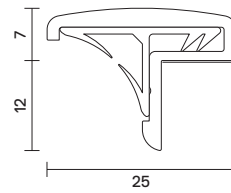

MEDIUM DUTY

AAS7506

TECHNICAL

AAS7506

Location

Meeting stiles of single action double leaf doors - where only one door leaf is in use

Seal Material

Co-extruded elastomeric with flexible curved fins

Standard Lengths

- 2.25m and 2.75m

Fixing

- Fixing holes pre-drilled and countersunk
- Screw pack provided
- Using self-adhesive tape to position aluminium carrier while fixing, push-fit Batwing® seal into place

Note: A door selector should be considered unless one leaf is intended to be fixed

Finishes

- Silver anodised aluminium with grey gasket
- Other colours available
